

A diagram of a rectangular frame. The outer dimensions are 65 inches in width and 24 inches in height. The inner dimensions are 70 inches in width and 6 1/2 inches in height. The frame is composed of two concentric rectangles, with the inner rectangle being slightly larger than the outer one in width but smaller in height.

FRONT VIEW

Technical drawing of a vertical structural member (likely a column or wall section) showing dimensions in inches. The drawing includes a cross-section at the top and a side elevation below. Key dimensions are:

- Overall height: 53"
- Top section width: 6 1/2"
- Top section depth: 5"
- Section depth: 3"
- Section width: 40"
- Section height: 48"
- Section width: 1 1/2"
- Section height: 24"
